SN Candymeal & SN Chocolate Feed

What is it? **SN Candymeal** and **SN Chocolate Feed** are blends of chocolate, pasta, cereals, crackers, cookies, breads, sugars, nuts and other foods milled with agricultural commodities to create a finished, high-energy feed component.

How does it fit? Typically used as a replacement energy source for corn, cottonseed, or molasses in the ration. Proven to increase ADG in beef, and fat and protein levels in dairy while increasing DMI.

- * Inclusion Rates 2-6 lbs/cow/day (Work with a nutritionist for optimal results)
- Replaces Cottonseed pound for pound in the ration

Pricing. Priced at a discount to corn. Sells on average \$10+ less than its perceived nutritional value according to Penn State's monthly feed value listings.

- *Comparing current historic Cottonseed prices in the Northeast, Candymeal delivers savings of approximately \$75/ton in feed costs

Consistent. We test and regularly monitor to ensure consistency and quality on an ongoing basis.

TYPICAL ANALYSIS

SN Candymeal

Moisture: 12%
Protein: 14.2%
Fat: 11.5%
WSC (sugars): 14.1%
Starch: 18%
NEL (Mcal/Lb): 0.96
NEM (Mcal/Lb): 1.01
NEG (Mcal/Lb): 0.71

SN Chocolate Feed*

Moisture: 11%
Protein: 13%
Fat: 11%
WSC (sugars): 19%
Starch: 10%
NEL (Mcal/Lb): .1.00
NEM (Mcal/Lb): 1.06
NEG (Mcal/Lb): 0.76
**to be used with flat storage only*

CALCULATED COST SAVINGS

Proven to increase Butterfat & Protein components in milk while increasing Dry Matter Intake (DM)

Scenario 1:

- 100 cows producing 90 pounds of milk
- Conservative increase in Butterfat by .10% & protein .20% adds * \$0.27 per CWT
- For every 1,000 cows increases component profitability by *\$7.533 every month!

Scenario 2:

- 100 cows producing 90 pounds of milk
- Conservative increase in Butterfat by .20% & protein .08% adds * \$0.61 per CWT
- For every 1,000 cows increases component profitability by *\$17.019 every month!

SN Candymeal & SN Chocolate Feed

Don't Just Take Our Word For It.....

"We have been incorporating Graybill products into our rations for over 4 years now, and have been very pleased with milk and milk component production at a reasonable cost."

– John Rapp, Rapp Dairy Nutrition, LLC

Chocolate Feed has replaced cottonseed for us – at a significant cost savings, while raising our fat and protein levels, and without sacrificing milk production.

We could not be happier with the product."

– Dennis Underwood, East River Dairy, Cortland, NY

"We started feeding Candymeal and instantly saw a \$1.22/cwt increase in our component values for our Jersey herd. I wish we would have started feeding this months ago."

– Ryan Clark, Windy Lane Jerseys, Tyrone, PA

"We have been using Candymeal for 20 years as a method of stretching our homegrown corn inventory. We highly value this product as we are confident that each load will be consistent every time."

– Nissley Bros Feedlot, Mt. Joy, PA
